About Us

EquityEd is an initiative that initially started in the Summer of 2023 by compiling opportunities into a shared and distributed Notion database also made accessible via PDF, which was distributed within schools that our team members attended. Now you can access it at anytime, at no cost.

A common theme within most state-funded schools is that opportunities often feel scarce to find. However, from this initiative, we want to show you that opportunities can be **abundant** as long as students are **proactive**.

Contrary to popular belief, you don't have to pay thousands of pounds in order to access amazing opportunities. Therefore, we want to completely remove financial barriers that comes with accessing opportunities – EquityEd will always be **free** and **accessible** to all. This initiative is currently fully-funded from our very own pockets.

EquityEd was made by state-school students, for state-school students; we have also faced some of the barriers that you may currently be facing.

Y12 (S5 Scotland) Opportunities

Opportunity	Organisation/Institution	Details	Link	Tags
